

HOLLISTON OIL SERVICE, INC

NEW CUSTOMER INFORMATION

Thank you for choosing Holliston Oil Service as your full-service oil dealer. You will not be disappointed. Be sure to check out our website – HOLLISTONOIL.COM

Prior to your first delivery we must perform an inspection of your oil tank and oil line to make sure everything looks safe. The steps are simple and are in place to ensure you that your equipment meets the current industry safety standards.

1. We will perform a visual inspection of your oil tank. During the visual inspection of your oil tank we will check for many things. Some of these include rust, leakage, corrosion or damage to exterior of tank. Other things we look at are the condition of tank legs, oil fill and oil vent piping and valves.
2. We will also perform a visual inspection of your oil line. Current code requires that your lines be encased in a protective sleeve. When your oil line comes in direct contact with concrete or water, the resulting chemical reactions can cause your lines to corrode and leak.
3. Our expectation is that, if required, you are willing to bring your tank and lines up to standard, providing you with a safe, economical and environmentally friendly system. We are unable to deliver oil to you until your equipment meets current safety standards.

SERVICE INFORMATION & MAINTENANCE PACKAGES

As your full-service oil dealer, we recommend that you have your heating system professionally inspected and tuned-up on an annual basis. Like an automobile, a central heating system needs periodic inspection and maintenance. It is a fact, that by making sure your heating equipment is running at its peak efficiency can **save you up to 10%** annually on your heating bills. In addition, routine maintenance can uncover small problems before they lead to major equipment failure and major expense.

We do offer maintenance packages to our customers. New customers may be eligible for a maintenance package based on our findings during our initial visual inspection of your oil tank, oil line and heating system. A maintenance package, among other things, will cover your annual tune-up, in addition a discount on repairs for most services. Your maintenance package will renew annually.

Although we do our best to ensure your equipment is safe at the time of inspection, safety and environmental standards change and equipment deteriorates. Because we do not inspect the tank and lines prior to every delivery, it is extremely important that you monitor the condition of your equipment and immediately advise us at info@hollistonoil.com or at 508 429-2075 of any changes or concerns you have regarding your oil line or tank.

Application for Credit

In addition to providing outstanding home comfort products and services, Holliston Oil Service, Inc. is always looking for ways to serve you better. One of the best ways we can think of is to extend you credit. Qualified Customers tell us they enjoy the ease and independence this payment method offers.

Once a credit limit is established, you can apply not only your fuel purchases to this plan, but any equipment installations or service calls as well. At Holliston Oil we think this is an ideal way to manage your bill payments and important expenses.

We also offer Automatic Credit Card Deduction as another convenient way to pay your bill. With your permission we can charge your credit card automatically each time you have a delivery or service work. It's easy to set that up.

Payments may also be made on-line at:

HOLLISTONOIL.COM or HOLLISTONOIL.DELIVERYPAY.COM

Any inquiries can be directed to info@hollistonoil.com.

In case of errors or inquiries regarding your bill contact Holliston Oil Service immediately.
